

POWERPOINT ADVANCED

Introduction

This course reveals all the extra features of the PowerPoint program, as well as refreshing some of the key concepts trained on the other PowerPoint courses at Oak Tree Management & Training.

The extras include designing templates, working with multiple masters, creating photo albums, dealing with sounds and inserting media clips, further animation techniques and OLE linking data.

Who Should Attend:

- ◆ Current PowerPoint users who create presentations but want to know the extras!
- ◆ Current PowerPoint users who would like a refresher course following attendance on another PowerPoint course at Oak Tree Management & Training.
